**WASTE DISCHARGE REQUIREMENTS FOR DISCHARGE OF CONTAMINATED SOIL -  
BOEING REALTY CORPORATION C-6 FACILITY, LONG BEACH, CALIFORNIA  
(File No. 88-57-027 (98))**

Dear Mr. Stavale:

On April 9, 1998, you filed with this Regional Board a report of waste discharge to discharge up to 1,500 cubic yards of non-hazardous hydrocarbon contaminated soil at the Bradley Landfill in Sun Valley, California, to be used as daily cover. Based on the data you submitted to us, we informed you in our letter dated April 13, 1998, that the proposed discharge did not meet our criteria for the disposal of non-hazardous waste to a Class III landfill in this Region. Subsequently, you agreed to conduct Title 22 waste characterization analyses on the subject wastes and resubmit the application.

On June 2, 1998, Dr. Michael Young of Integrated Environmental Services, Inc., your consultant, submitted the results of testing, as requested by Board staff, for ignitability, corrosivity, reactivity, and toxicity, pursuant to Section 66261.10 of Article 2 of Title 22 to the Regional Board. The results of this testing indicated that the material is non hazardous. Dr. Young also provided additional information on the contaminated soil in a meeting with Board staff the same day.

We have reviewed the information and have determined that the proposed discharge of this material meets the conditions specified in Order No. 91-93, "General Waste Discharge Requirements for Discharge of Non-Hazardous Contaminated Soils and Other Wastes in Los Angeles River and Santa Clara River Basins", adopted by this Board on July 22, 1991 (attached). This material could be used as daily cover at a Class III landfill. Note that this material must contain greater than 50% solids before being discharged at the landfill. Approval of soil used for daily cover is also contingent upon concurrence by the Integrated Waste Management Board and any Local Enforcement Agency.

Enclosed are Waste Discharge Requirements, comprising:

1. General Waste Discharge Requirements
2. Monitoring and Reporting Program

Please note that the Monitoring and Reporting Program requires that a report be submitted to this Board within 10 days of the completion of disposal operations, ATTN: Data and Information Management Unit. The report shall reference the above file number.

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
LOS ANGELES REGION**

**MONITORING AND REPORTING PROGRAM  
for  
DISCHARGE OF NON-HAZARDOUS CONTAMINATED SOILS  
AND OTHER WASTE**

**BOEING REALTY CORPORATION C-6 FACILITY  
LONG BEACH, CALIFORNIA  
File No. 88-57-027(98)**

**I. Reporting**

- A. The discharger shall implement this monitoring and reporting program on the date of issuance of the Waste Discharge Requirements.
- B. The monitoring report shall be submitted within ten (10) days following the completion of disposal operations at the final point of disposal.
- C. All analytical samples obtained for this program shall be grab samples.
- D. In the event that hazardous or other unacceptable wastes are detected during disposal, the type, source, and final disposition of these wastes shall be reported.

**II. Waste Disposal Reporting**

- A. A report containing the following information shall be filed with this Regional Board after completion of all waste disposal:
  - 1. A tabular list of the estimated average quantities (in cubic yards) and types of materials deposited.
  - 2. Where the material was deposited (landfill name).
  - 3. A certification that all wastes deposited were in compliance with the Regional Board's requirements and that no wastes have been deposited outside of the boundaries of the site as specified in the Regional Board's requirements.
  - 4. In those cases where approval is given for the partial disposal of contaminated soils or other wastes, the ultimate disposal point of the remaining contaminated soils or other wastes must be reported, including the quantity of material disposed of at the different location.

General Waste Discharge Requirements  
Discharge of Non-Hazardous Contaminated Soils

File No. 88-57

B. Monitoring reports shall be signed by:

1. In case of corporation, by a principal executive officer at least of the level of vice-president or his duly authorized representative, if such representative is responsible for the overall operation of discharge;
2. In the case of a partnership, by a general partner;
3. In case of a sole proprietorship, by the proprietor;
4. In the case of a municipal, state or other public facility, by either a principal executive officer, ranking elected official, or other duly authorized employee.

C. The report shall contain the following completed declaration:

"I declare under penalty of perjury that the foregoing is true and correct.

Executed on the \_\_\_\_ day of \_\_\_\_\_ at \_\_\_\_\_

\_\_\_\_\_(Signature)

\_\_\_\_\_(Title)"

D. The discharger shall mail a copy of the monitoring report to the following:
